SUMMARY

Hard worker, likes challenges, and very interested in technology. Skilled and experienced in designing, developing, and testing websites using up-to-date technologies. Eager to face more challenges regarding ways to optimize user experience. Equally good in individual and team work.

PROJECT

- **Binar Car Rental (Costumer)** [[view](#)]

Create an online car rental website which can display data from the back-end API and can interact with costumers. This application that built with React.Js. As a customer in this application you can search the available car, determine the date of renting, and make a payment.

- **Binar Car Rental (Admin)** [[view](#)]

This application that built with React.Js. As a admin in this application you can see order details rented by costumers and there is a CRUD feature (create, read, update, delete) for data settings for cars to be rented.
